

CSOE – Web Technology

Assignment 1

Name : Saravanan S

Roll No: 110119114

Dept : ICE

Description about the webpage:

- This is a quiz designed using HTML, CSS and JavaScript.
- It is a quiz which evaluates the participants on the awareness about COVID-19 rules and protocols.
- The player has to enter his/her name in the text box.
- The timer of 3 minutes will start as soon as the persons name is entered.
- A total of 10 questions will be displayed along with 4 options (only one is correct among them).
- The player should choose one option, a feedback green/red based on the correctness of the option will be displayed along with a sound.
- The player can visit any of the 10 questions anytime by clicking on the drop box button.
- After pressing the submit button the score will be calculated and the stats will be displayed. The stats contains:
 - Name
 - Score
 - No of correct answers
 - Correct to wrong ratio

Description about the github repo:

- ind.html - this is the landing page of the webpage.
- styles.css - this file is responsible for creating styles for the webpage and makes it look presentable
- app.js - this is the JavaScript file responsible for creating the website flow, keeping track of scores and time remaining.
- green.wav - this is the sound which plays when the choice is correct.
- wrong.mp3 - this is the sound which plays when the choice is wrong.
- blue-backgroung.jpg - background image used.
- corona.jpg - this is the logo used.
